

# Agreement for Funding

## I. Introduction

The Lebanon Tourist and Convention Commission (LTCC) is the official Destination Marketing Organization for Lebanon, Kentucky. We exist to improve the quality of life and increase economic impact through destination marketing and tourism development. The LTCC administers funds collected from a tourism development tax on transient lodging sales and a 2% restaurant tax in the city of Lebanon. The funds will be applied to programs and tourism development projects designed to promote tourism to the city of Lebanon.

The Commission set aside a portion of the overall budget to work with local groups and organizations coordinating special events, programs and projects which may directly benefit the local tourism industry. The Commission and executive director will entertain requests for funding of events and projects that are designed to have a direct economic impact on the community by increasing overnight visitation and increasing restaurant sales. Ideally, the funds allocated by the Commission will eventually be returned through an increase in incremental transient lodging occupancy and restaurant sales.

## II. Statement of Policies

- A. To be considered for funding a special event or project the event or project must first and foremost attract visitors to Lebanon. The increased visitation should directly and consistently increase transient lodging occupancy and restaurant sales.
- B. Grant funds from the Lebanon Tourist & Convention Commission are intended to supplement the sponsoring organization's budget, not replace it.
- C. All marketing materials must include use of the LTCC logo. The LTCC Executive Director is available upon request to aid in marketing and media planning.
- D. If an organization receives grant funds from the LTCC for a certain project or event in one year, that does not in any way guarantee that a grant request from the same program will be funded in future years.
- E. Grant recipients may use allocated funds only for such approved purposes stated in the grant proposals approved by the LTCC. Reallocation of funds for purposes other than those specified in the grant proposal will not be reimbursed by the LTCC.
- F. Grants used for special projects must show that the project will provide growth of the tourism industry in Lebanon. Emphasis will be given to grant requests that directly and indirectly maximize the number of visitors who come to our area. Grants showing the fastest and highest return on the investment will be given highest priority. Special project grants must improve the quality of life in Lebanon.

## III. Procedures for Application

- A. To be eligible for funding, requests are to be made on the attached application with all back up material and submitted to the LTCC at least 60 days before the date of the event.

- B. For special project grants the application must be submitted by April 1 for use in our next budget cycle that begins July 1. The money awarded for special project grants must be used in the fiscal year that the money is approved unless stated in the grant application that the project will take longer than one year. If the money is not spent in the fiscal year it is approved the applicant must reapply for funding.
- C. Applications for funding will first be reviewed by the LTCC Executive Director who will check for completeness and verify key information as necessary and appropriate. Once the application has been received and reviewed, applicants may be asked to attend a regularly scheduled Commission meeting and provide a five-minute oral presentation. The Executive Director will notify the applicant if attendance at a meeting is required. The LTCC's regularly scheduled meetings are the second Wednesday of each month at noon.
- D. Factors considered for funding include, but are not limited to the following:
  1. The scheduled date(s) and time(s) of the event
  2. Estimated number of out-of-town visitors and their estimated length of stay with supporting documentation
  3. Plans for promotion
  4. Submission of an itemized budget that includes projected income and expenses
  5. Amount of funds requested and how those funds will be spent
  6. Probability of the event recurring annually

**IV. Post Funding Requirements**

- A. The attached post-event report must be submitted to the HCTCC within 30 days following the conclusion of the event. This report must include an accounting of the spending of Commission funds, an event financial report, and tracking statistics regarding out-of-town visitors and their overall impact on the local economy, particularly on transient lodging facilities and occupancy and local restaurant usage.
- B. Applicant understands that if this report is not submitted, no future grants will be awarded to this organization by the LTCC.
- C. For special project grants the recipient(s) will submit a follow up report every six months until the project is completed. The follow up report should show status of project and expected timeline for completion.
